

Vocabulary List

Change	To make different; for example, people often change as they grow older
Transportation	A way to carry people or things from place to place. Long ago people used horses, bikes, and carts to travel from place to place; today we usually use bicycles, cars, trains, trucks, and planes
Music	Long ago people enjoyed music by singing, playing a musical instrument, listening to live music, or by cranking a handle on a phonograph to play records. Today we have MTV, CD's, radios and tapes.
Telephones	A way to send sounds over wires. Long ago there were not many phones and they looked very different than what we use now; today telephones are portable, hand held and can be used without wires.
Light	The form of energy that helps a person to see. Long ago people used candles, fires, and kerosene or oil lamps; today we use electricity and batteries to power light bulbs.
Artifact	Real things or pictures of real things that existed long ago and tell us how things were back then. When we see them we can see how they have changed from then till now.
